PILAR NIKETAN SOCIETY

Activity Report 2020-2021

A. INTRODUCTION

The new academic year 2020-2021 was started on July 1, 2020. The total strength of the Pilar Niketan was 24 students and 6 staff members.

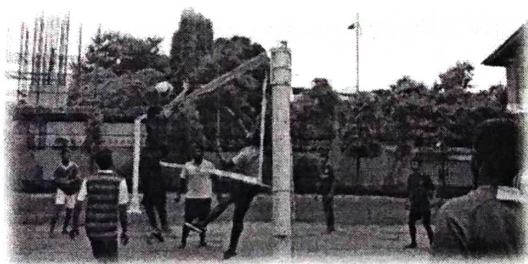

B. GENERAL FORMATION

1. Physical and Mental Health:

Overall health of our students has been good. This being a year of pandemic, we took utmost care and followed all SOP's in and around the house. We encouraged our students to stick to balanced diet, disciplined life and regular games. We kept motivating

our

students to remain positive amidst all the uncertainties around. However, during the year we did have two cases of Tuberculosis. Both of them underwent prescribed

treatment and have been cured of the same. There were a few students who underwent dental treatment and sports injuries were treated. Intra-house football, volleyball, and table-tennis matches were conducted during the year. A batch of students were trained in Yoga during the year and they continue to practice it on daily basis.

2. Formation as Persons :

Opportunities were provided for the all round and integral development of the students wherever possible through talent fiesta, competitions, debates, elocutions, caroling and cultural programme. The students were assigned house portfolios keeping in mind the need for growth in personal responsibility, commitment and team work.

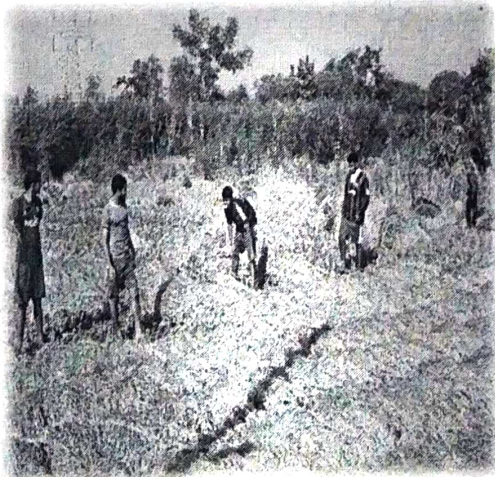

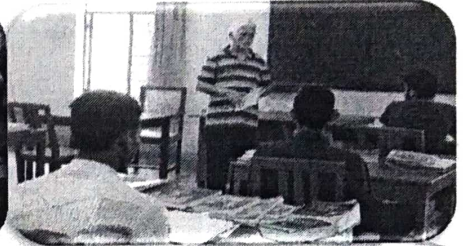

w Monthly excursions and free days were organized. A week-long mission exposure was held at Tumsar.

Students and staff share cordial relationship.

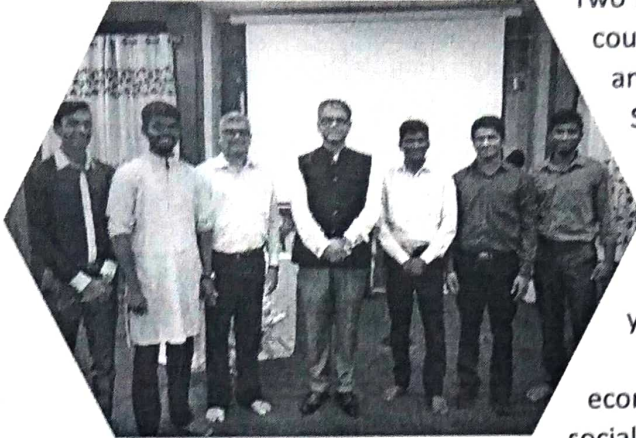

Monthly community meetings with time bound agenda are held.

The students do manual work for one hour daily except on Sundays.

Students are regularly instructed on discipline, value of work, team spirit, study methodology, good manners.

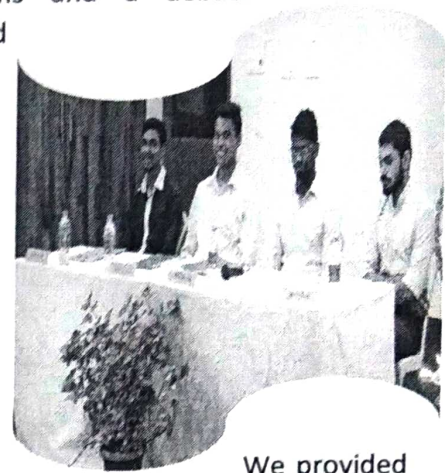

3. Intellectual Formation:

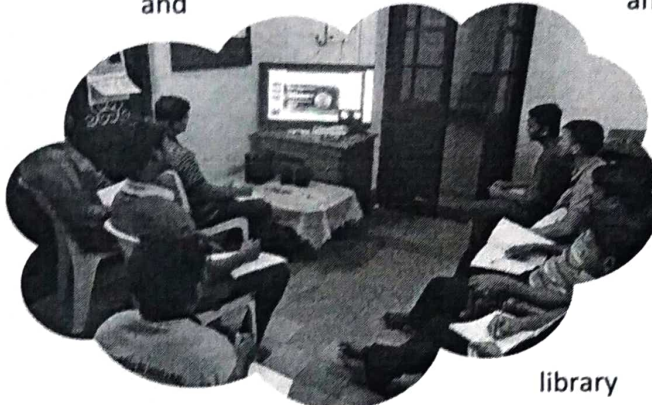

Two batches of students are trained in three-year course of philosophy to think creatively, logically, and to articulate ideas fluently and clearly. Students during the year attempted oral and written assignments, tutorial etc. Two symposiums and a debate were held during the year on cultural, economic and social themes.

Students attend SFS and Hislop colleges where they are securing a bachelor's degree in Arts. This year due to pandemic students attended their classes and

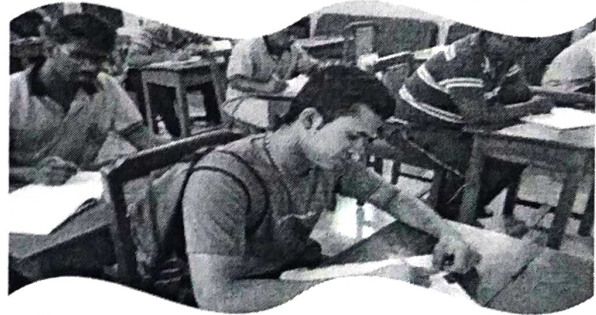

answered exams online.

We provided required facilities for our students to access the classes online. Every year the library is updated with new books and the students are encouraged to take recourse of the

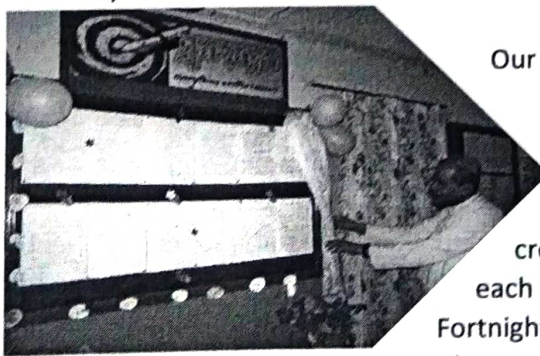

for their personal library study and intellectual knowledge.

Our

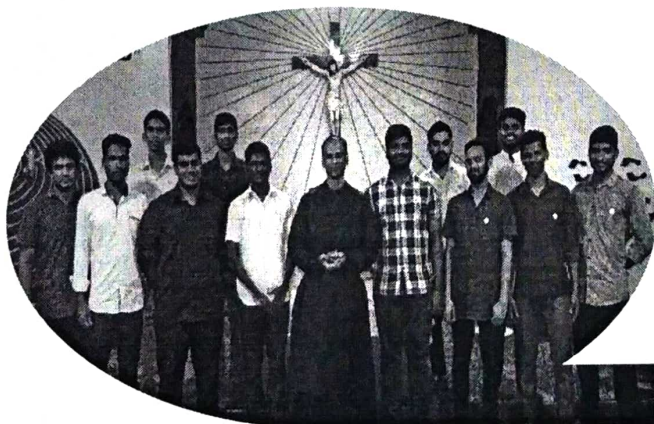

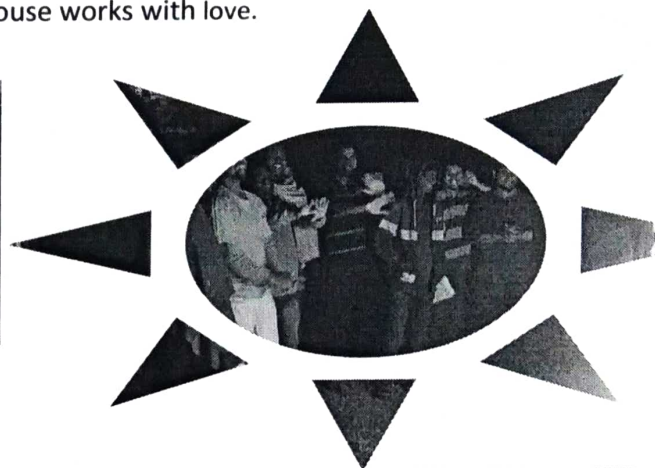

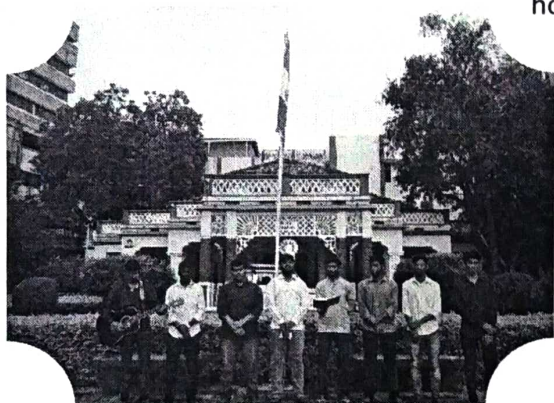

wall-paper entitled "Gyan Sangam" enables the students to express their philosophical and creative ideas. Each student wrote one article each on various socio-economic, political themes. Fortnightly, e-newsletter "Glimpses" reports the

important events held at Pilar Niketan.

4. Human Formation:

Unlike other years this year students could not get involved in weekend ministries at various places due to pandemic restrictions. Nonetheless values of compassion, care and respect for various cultures are instilled in our students as to prepare them to become effective leaders of tomorrow. Feasts of national and cultural importance were celebrated in the house. Our students are trained to do hard work and house works with love.

C. CONCLUSION

Overall, we had fruitful and an eventful year. Although confined to the house due to the pandemic our students worked hard with motivation and dedication. They are talented, thoughtful, enthusiastic and studious. We are truly thankful to our team of staff members for their dedicated and sincere assistance and team spirit. A word of appreciation to the governing body for its relentless support and concern towards our institution.
